

Visual Analysis and Insight of WeRateDogs Twitter Archive

Tweets posted by WeRateDogs decreased over time

As we can see WeRateDogs Twitter account was created in 2015. In the early days we noticed they posted about 300 tweets in November 2015. That number increased for the next few months reaching a peak of more than 350 tweets. However, its tweeting activity reduced drastically in the subsequent months, averaging between 50 to 100 since April 2016.

iPhone, only mobile device used by WeRateDogs

WeRateDogs posted 1994 tweets, and out of that 1955 were posted from an iPhone; which equates to about 98% of its tweets being made from iPhone. This visual also points to that the only mobile device that WeRateDogs uses to post tweets is an iPhone.

Charles is the most common dog name

This visual illustrated the top 6 common dog names.

We can see that 11 of the dogs were named Charlie; which is the most common name in the dataset. The close second are Lucy, Cooper and Oliver with 10 dogs each being names as these.

Retweets and Favorites Analysis

The above plot depicts an increasing trend of retweet and favorite tweets posted by WeRateDogs since November 2015. We can also see that favorite tweets have had a sharper increase with time than retweet trend.

Most of the dogs are rated 12/10 meaning 455 out of the 1994 dogs. We also have 2 outliers dog ratings. Excluding the outlier ratings, the highest rating received by any dog is 14/10. We can also see that only 37 dogs got this rating which equates to about 2%.
